## PRESIDENTS MESSAGE by Maureen Henderson

Here it is, May already – can't believe it. Like most of you, I've had a hard time getting out on the trails this spring. Hopefully, the rain is pretty much over by now and we can start getting our horses legged up for all those fun rides we have planned for the summer months.

Ran across an article on how to calm down a spooked horse which I thought may be helpful. Most of you already know these techniques but for some of the more inexperienced riders out there, who are taking their horses out on the trail after a long winter layup due to wet weather conditions, some of these techniques will serve as a refresher to help you out before that first time back out on the trail. See, <http://www.wikihow.com/Calm-Your-Horse-Down-Quickly>

We have an added item to our agenda. At our monthly meeting on June 21, Sonja Conklin from AirMedCare (formerly CalStar) will come to speak to us about the changes to CalStar and upgraded benefits available. The program has been greatly enhanced and includes options to fly you home from anywhere in the United States. If you are at all interested in air ambulance services, this is a **must attend** meeting where all of your questions will be answered.

We had a great turnout for Obstacle Day on April 22. Thanks so much Liz, for putting that together. If you didn't get a chance to make it out, be sure to mark your calendar for another of the upcoming Obstacles Days we have planned in the near future.

Happy Trails

### TRAYLOR RANCH NATURE RESERVE

On April 22 we had our first workday of the year since we had to cancel March due to rain. A BIG thank you to Jim Groeser, Maureen Henderson, Billy House, Judie Lew, Annette Nylander, Dale Sloss, Mary Westfall, Jennifer Wright.

The first workday is always about the grass. We had so much rain, the grass almost seems to be growing as you watch. Maureen and I mowed the trails ahead of the workday to allow more flexibility on the workday. But since it was so wet we had to stay out of a few areas, including the grinding rocks. With the help of our weed-wack crew, there are cleared trails to those areas for pedestrian traffic. We had a number of tree limbs which needed removal.

The trails are in good shape. They are all mowed and ready for use. Go out and enjoy! Please note our workdays are the 4th Saturday of the month. The next workday is May 27. It is a three day weekend, hoping for a good turnout.

Mark your calendar now. I expect a month of big grass growth, so weedwacking will be the order of the day.

If you have any questions, don't hesitate reaching out to me.

*Horses First.  
The rest later.*

*Dave Faoro*

**TRNR Committee Chairman,

## Membership Meeting Minutes April 19th, 2017

Meeting was called to order by Maureen at 7:00 pm. The following Board members were present: Maureen Henderson, Janis Rau, Kathy Dombrowski, Sherry DeBare, Melanie Warlow, Greg King, Flo Faoro and Dave Faoro. Not Present: Barbara Heyward. Committee Chairpersons present were: Liz Daffner. Maureen Henderson acted as Secretary for the meeting.

Janis gave the treasurer's report. She reported that the CD has matured and to date we have not invested in another. The current interest rates are 1.05-1.25%. It was decided not to invest in a new CD.

Dave F. reported on Traylor Ranch. The next work day will be Saturday, April 22.

Liz D. reported on refurbishing the upper arena and obtaining additional sand for the lower arena. She made a motion to spend \$5,000 or less on the upper arena. The motion was seconded by Kathy D. After much discussion, including taking down the existing upper arena fencing in order to do the proper grading, replacing the posts, most of which are rotted out, it was determined that further clarification of quotes and work orders needs to take place. The motion was tabled until the appropriate information has been obtained.

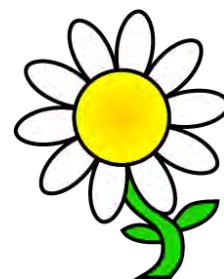

Discussion centered on the October Horse Shows. Janis had several suggestions for refining our preparation for the show. This included printing up post card size flyers, including putting a request for volunteers on the card. Liz volunteered to put something together. Further suggestions included purchasing a new sandwich board, rethinking the number of tables and booths at the show, and obtaining a pattern board for the back gate. Kathy D. volunteered to assist with selecting a new sandwich board. Further discussion centered around being more prepared for Saturday morning and having a meeting with horse show office volunteers a couple of days ahead of the show.

Kathy D. advised she had been contacted by Loomis Basin Equine Medical Clinic to determine if we wish to have a booth at their Equine Health Fair on June 4. She made a motion that we participate, seconded by Sherry D. The motion was passed unanimously. Liz volunteered to do a poster for the fair. Maureen H. volunteered for a 2 hour spot. We will be looking for other members to volunteer to host our booth for a couple of hours during the event.

The next meeting will be held on Wednesday, May 17. Due to the amount of business to be discussed, it was determined that **meeting will start at 6:30** so we can finish by 8. Members can come early to eat at 6:00 pm. Kathy will change the room reservation from 6:30 to 6:00 pm.

The meeting adjourned at 8:20 pm.

Submitted by Maureen Henderson, Acting Secretary

 Sunday 10/23 at the  
 Arena.

## ARENA

**ARENA::** Please NO TRAILERS or HORSES on the asphalt parking lot. ALSO, no barrels, poles or other equipment may be used in the arena. Small Orange cones are OK. Trainers must have an Arena Use form submitted annually as well as the proper insurance naming LBHA and Placer County as "Also Insureds." If Insurance is cancelled 2 times or more, the permit is no longer valid. Trainers MUST contact LBHA with the time and number of students that will be in class, 24 hrs before the lesson. (All Forms are on LBHA Website at LBHA.us)

Pride is no longer doing maintenance, now have a new company that knows what to do. A new sign up has gone up on the trail for Trail Right of Way. Horses have the right of way. The swing over the creek is gone. The pile of red dirt in the gravel parking lot before the red gate was dumped with out permission. As soon as Roads can get to it they will remove it. If anyone needs some fill dirt, they can take all they want.

# Horse Trail Map for Folsom Lake Folsom Lake State Recreation Area California Department of Parks and Recreation

Review of a classic horse trail map by Robert H. Sydnor, A.E.R.C. Trail Master,  
and A.E.R.C. California State Trails Advocate  
May 2017

## Introduction

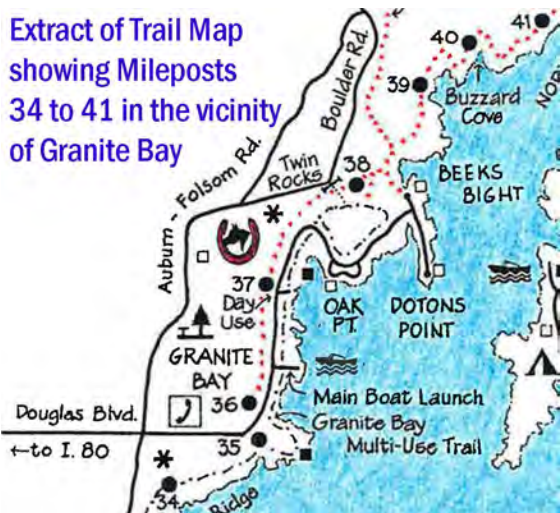

Equestrians who ride on horse trails in the Folsom Lake area rely on the excellent trail map published by the Folsom Lake Mounted Trail Patrol. This classic 1999 map was beautifully hand-drawn by the Rusty Spurs Design Group in Cool, California.

The purpose of this review is:

- ① to showcase this horse trail map,
- ② to explain where to obtain it,
- ③ to recommend that newer riders purchase the map and carry with them while riding, and
- ④ to showcase why the Mileposts, GPS coordinates, and tagged digital photographs are important when accurately describing the *precise location* of a trail predicament (such as a fallen tree) for Park Watch Report.

<https://www.parkwatchreport.com/>

This is the *only* map that shows the Mileposts on the Pioneer Express Trail, and the locations of 8 horse assembly areas.

A detailed extract of the horse trail map is shown at left. The location of the **Granite Bay Equestrian Assembly Area** is shown by the red horseshoe and the silhouette of a horse's head. This is located between Mileposts 37 and 38 of the Pioneer Express Trail (shown in dashed red).

## Availability

The horse trail map of Folsom Lake can be purchased at the **Park Headquarters** offices of the Folsom Lake State Recreation Area; **telephone 916-988-0205**. It is located on the southwest side of Folsom Dam, at **7806 Auburn-Folsom Road, Folsom, California 95630**. The Park Headquarters office closes at 4:00 PM, so come early. The FLSRA website is: [https://www.parks.ca.gov/?page\\_id=500](https://www.parks.ca.gov/?page_id=500)

While you are there at Park Headquarters, an **annual Poppy Pass** can be conveniently purchased. Also pick up a free copy of the **Folsom Lake brochure** that includes a simplified map. The simplified map lacks the horse-trail mileposts and trail details, but provides an informative general overview.

<https://www.parks.ca.gov/pages/500/files/FolsomLakeFinalWebLayout061016.pdf>

## Purchase of Horse Trail Map

The bargain price is **only \$3** for the **large 11×17-inch map**. The park keeps the payments in a separate account for the Folsom Lake Mounted Trail Patrol, so that FLMTPT can subsequently print additional copies of the horse trail map.

It is recommended that you purchase *four copies* of this classic map: one copy to fold and carry with you while riding, one reserve copy to keep clean at home, one copy to laminate and post on the bulletin board of your horse barn, and one copy to give (as a welcoming gift) to a *new* member of your equestrian group (*such as*: Gold Country Trails Council; Loomis Basin Horsemen's Association; Backcountry Horsemen of California, Mother Lode Unit; the American Endurance Ride Conference; or the Sacramento Horsemen's Association. For only \$3, this practical gift is appreciated by equestrians who are new to the Folsom Lake area.

## Subsequent Lamination of Horse Trail Map

Only the paper copy of the map is for sale at the Park Headquarters.

The paper copy can be subsequently laminated at the offices of FedEx—Kinkos for only \$4. The lamination results in a durable version that can survive moisture and dust when stapled to a bulletin board inside a horse barn. With a durable laminated map, you can adroitly plan your next ride with equestrian friends. The regular paper map and the subsequently laminated version are shown at right.

## Folsom Lake Mounted Trail Patrol

For current information about Folsom Lake Mounted Trail Patrol and their schedule of activities, please visit their website on Facebook:

<https://www.facebook.com/Folsom-Lake-Mounted-Trail-Patrol-Unit-620439328121934/>

Folsom Lake Mounted Trail Patrol welcomes new members.

## Rattlesnake Awareness

Rattlesnake season is again upon us. The warm spring weather has awakened the slumbering reptiles from their winter hibernation. We've already seen several dogs and cats at our vet clinic arrive with swollen heads or limbs. You can't help but feel sorry for them as they suffer through the symptoms of their encounters with these highly venomous creatures. Rattlesnake bites in horses are very dangerous and a pretty common occurrence. Knowing what to do if your horse is unfortunate enough to have a run-in with a rattlesnake can make a huge difference in the recovery time and the extent of the tissue damage caused by the rattlesnake venom.

### Most Common Bite Locations On The Horse and Associated Complications

The majority of rattlesnake bites in horses occur on the nose. Horses by nature are very curious animals, and during grazing come into contact with the snakes. The rattlesnake's characteristic warning rattle draws the curious horse's in and they can't help but to go investigate the coiled up critter making the noise.

Horses bitten on the nose do fairly well as long as their airways do not become compromised. Their heads can swell quite dramatically and the ***nasal passages can close off***. If this happens, tubes will need to be placed in the nostrils to allow the horse to breath. Horses with bites to the head can also have problems with food intake due to the pain and swelling associated with the rattlesnake bite and may need alternative means of getting nutrients.

The next most likely place for your horse to get bitten is on the legs. As with humans, horses can walk by completely unaware of snakes hidden in the tall grass, brush piles or under rocks and logs and will get within striking distance without even knowing until it is too late. These types of bites can be the worst, as the swelling in the limb can cut off blood supply to the hoof. In effect, the horse develops laminitis. In severe cases life ***threatening complications can occur***, particularly if the rattlesnake's fangs puncture a joint, usually just above the hairline and hoof wall junction.

### What Should You Do If Your Horse Is Bitten By A Rattlesnake?

Despite all the old western movies depicting snakebite victims having the poison sucked out of their wounds, this is not the recommended first response treatment! ***Do not*** attempt to open the puncture wounds or suck the venom from your horse. You risk your own health and further contaminating the wound site by doing that.

If your horse is bitten by a rattlesnake, contact your veterinarian as soon as possible. Keep the horse calm and confine its movements as much as possible, as increased heart rate and respiration can help spread the venom through the tissues even faster. If you have a good relationship with your veterinarian, they can help you put together some first aide supplies to keep on hand that will help buy you some time in case you can't get to the vet quickly. Giving an anti-inflammatory drug like Banamine or bute can help with the pain and swelling. Most horse owners have one or both of these drugs available either in the barn, or if traveling, in the tack room of their trailer.

Most treatment plans will include a course of antibiotics, as **risk of secondary infection** is high with rattlesnake bites. The antibiotic of choice is usually penicillin. However, penicillin is notoriously under dosed by horse owners that take it upon themselves to treat their horses without consultation with their veterinarian. The correct dose for an average 1000-pound horse is 30 cc intramuscular twice daily. When administering penicillin injections to your horse, you will want to make sure and rotate the injection site each time to minimize the soreness, alternating between the large gluteal muscles of the rump and the trapezius muscles of the neck. Do not attempt to give the injections yourself unless you are confident that your horse can handle them. Some owners have found out the hard way with a well-placed kick that their horses were not tolerant of the painful injections. Depending on the severity of the bite, your veterinarian may also want to administer a corticosteroid and/or intravenous fluids.

Within a short time of being bitten, swelling will start to appear around the bite area as the venom invades the surrounding tissues. Rattlesnake venom works by **breaking down the tissues**, in effect digesting the tissues. Excess fluids from this breakdown process will quickly begin draining from the bite area. Sometimes they find their way out in the general vicinity of the bite wound, but will generally rely on gravity to find the best exit from the body. You can expect in most cases for these symptoms to begin to subside within the week. Within a few days of the cessation of drainage, the skin will usually start sloughing from around the area of the bite. Due to the risk of secondary infection, it is important to keep the area clean, keeping in mind that the area will be extremely painful to the touch. Warm, soapy water or a mild antiseptic solution should be sufficient to wash the area.

Last fall was the first time I had to deal with a rattlesnake bite on one of my horses first hand. He was bitten right on the end of the nose, below the nostril. The fang marks were approximately 1 inch apart, so it was a fairly large rattlesnake. We were lucky in that the bite was a **"dry bite"** in which the snake did not envenomate. This happens in approximately 50 percent of rattlesnake bite cases. The snake either has exhausted its supply of venom on a recent meal or is startled and just bites in warning without envenomating. My horse did have some minor swelling for several days and sloughing of the skin about 4 or 5 days after the bite. I had anti-inflammatories and antihistamine in the barn and was able to administer those immediately. I was thankful that I had those supplies already on hand and did not have to wait to start treatment until I could either get my horse to town or get my vet out to my house. Most veterinarians are happy to walk you through what you need to do as a first response over the phone if you have the necessary medications and supplies at home.

As with medical emergency, symptoms and treatments will vary from case to case. **Always** consult with your veterinarian before starting any treatment plan. Do not wait until it is a life-threatening scenario before you call. The old saying, "the best defense is a good offense" is really quite true. Talk to your veterinarian now, before the emergency arrives, about what kinds of supplies you should have on hand and arm yourself with knowledge. You are your horse's first line of defense in all things.

LOOMIS BASIN HORSEMEN'S ASSOCIATION

RELEASE AND HOLD HARMLESS AGREEMENT

The Undersigned assumes the unavoidable risks inherent in all horse-related activities, including but not limited to bodily injury and physical harm to horse, rider and spectator. The Undersigned acknowledges that horse-related activities are dangerous and that horses themselves have unpredictable temperaments which can sometimes cause injury. The Undersigned acknowledges that even the most experienced horse event sponsor, participant or horse owner cannot predict how each individual horse will react in a variety of situations and cannot guarantee my safety. THEREFORE, BY SIGNING BELOW, I KNOWINGLY ASSUME THE UNAVOIDABLE RISKS INHERENT IN ALL HORSE-RELATED ACTIVITIES, WHETHER KNOWN OR UNKNOWN, INCLUDING BUT NOT LIMITED TO BODILY INJURY AND PHYSICAL HARM TO HORSE, RIDER AND SPECTATOR, AND AGREE TO THE FOLLOWING ON BEHALF OF MYSELF AND MY SPOUSE, IF ANY:

1. I HEREBY RELEASE AND DISCHARGE LOOMIS BASIN HORSEMEN'S ASSOCIATION ("LBHA"), THE LBHA BOARD OF DIRECTORS, ALL LBHA OFFICERS AND INDIVIDUAL CLUB MEMBERS AND THEIR AGENTS, EMPLOYEES, OR REPRESENTATIVES, AS WELL AS PLACER COUNTY, (HEREINAFTER COLLECTIVELY KNOWN AS "RELEASEES") FROM ALL ACTIONS, CLAIMS OR DEMANDS I MAY NOW OR HEREAFTER HAVE FROM INJURY, DEATH OR DAMAGE RESULTING FROM MY PARTICIPATION IN ANY HORSE-RELATED ACTIVITIES SPONSORED BY LBHA, AT LOOMIS BASIN HORSEMEN'S ARENA OR AT ANY OTHER LOCATION.

2. I also EXPRESSLY WAIVE any rights I may have under California Civil Code §1542, which states: "A general release does not extend to claims which the creditor does not know or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor."

3. I agree that I will DEFEND, INDEMNIFY AND HOLD HARMLESS Releasees against all claims, demands, and causes of action, including court costs and actual attorney's fees, arising from any proceeding or lawsuit brought against them due to any act done by me, or brought by me or for my benefit.

I HAVE READ THIS RELEASE AND WAIVER OF LIABILITY AND INDEMNITY AGREEMENT CAREFULLY AND COMPLETELY, AND FULLY UNDERSTAND ITS CONTENTS. I AM AWARE THAT THIS IS A RELEASE OF LIABILITY AND A CONTRACT BETWEEN MYSELF AND RELEASEES, AND I SIGN IT OF MY OWN FREE WILL. I FURTHER AGREE THAT NO ORAL REPRESENTATIONS, STATEMENTS OR INDUCEMENTS APART FROM THE FOREGOING WRITTEN AGREEMENT HAVE BEEN MADE, AND THAT I RELY ON NONE. THIS AGREEMENT SHALL REMAIN IN EFFECT UNTIL REVOKED IN WRITING BY ME.

## Member Requests:

"Hi all. I am looking for a companion for my 10-yr-old pony who is very lonely after her stall mates have died. I have in-and-out stalls, daily turnout on a grassy acre, and direct access to the Folsom Lake trails from this property. Peaches gets along with all equines and loves to run around the pasture with a buddy. Plenty of hay storage here--I feed low calorie (lab tested) grass hay, but there's room for your own hay if you prefer.

**Barbara Heyward** [916-652-4781](tel:916-652-4781) (off Auburn Folsom Rd near King)

I'm reaching out to my respectable horsey friends in hope of finding that safe, sane and loving horse for my daughter and her family. She is an intermediate rider but has not ridden for years, raising two boys ages 8 and 10. Boys will be around new addition. Would like to start western pleasure so horse must be papered. Boys will show halter. Price \$3000 If you know of any prospects please give me a shout and pass this message to a friend. **Linda Tarico**

11 year old gelding, Ace, about 15 to 15.1 hh. This horse has been roped off of, sorted cattle, driven cattle, gone on pack trips and been ridden for many rugged trail miles. He has good feet and is a solid trail horse. His owner is Bill Hartline and can be reached at [530 632-0458](tel:530-632-0458). He is priced at \$5500.
